About Armacost Lighting

Armacost Lighting is a leader in the design, manufacturing, and marketing of energy-efficient LED lighting, LED drivers, lighting controls and accessories. Our products are designed to meet the custom installation needs of architects, lighting designers, electricians, remodelers and DIY homeowners.

Why Choose Armacost Lighting?

Superior performance. Great value.

U.S. based fulfillment and a knowledgeable support team to guide product selection.

Innovative products are easy to install and are great for both home and business.

Environmentally friendly. LEDs use up to 80% less energy than incandescents, last longer, and do not contain mercury or emit harmful UV or IR radiation.
